

CHRISTIAN MCHAIL B. DELA CRUZ

Software Developer | Graphics Designer

Carmona, Cavite | mchaildelacruz@email.com | +63 976 100 4601 | www.linkedin.com/in/mchail-dela-cruz

PROFESSIONAL SUMMARY

Information Technology student with experience in software development, graphic design, and laser engraving operations. Proven ability to develop practical technology solutions, create marketing and promotional materials, and produce precision vector designs for laser-engraved products across academic and business environments. Skilled in Adobe Creative Cloud and web application development, with a strong focus on delivering creative and technical solutions.

WORK EXPERIENCE

Software Developer

City Health Office, City Government of Carmona

July 2025 – Present

- Developed a comprehensive queueing system for the City Health Office, incorporating priority handling, laboratory waiting queues, and patient transfer workflows to improve operational efficiency.
- Designed and maintained structured reporting features with improved accessibility and navigation using PHP and MySQL for reliable data management.

Design and Operations | Laser Engraving

Lumbre Gunsmith Shop, Silang, Cavite, CALABARZON

October 2023 – Present

- Designed custom firearm engravings using Photoshop, translating client requirements into detailed and precise visual outputs.
- Operated laser engraving machines using LightBurn, ensuring accurate execution of designs while maintaining high-quality craftsmanship and customer satisfaction.

Digital Operations Manager

CCIS Shooting Range, Silang, Cavite, CALABARZON

November 2023 – January 2026

- Created digital publications and implemented marketing strategies for CCIS Shooting Range to increase customer engagement and attract shooters from multiple locations.
- Leveraged current digital trends and analytical insights to enhance outreach effectiveness and improve brand visibility across online platforms.
